Dear Mr. Hingtgen,

Attached please find the "Written Comment Form" for Concepcion Caldwell and Clifford Caldwell in regards to the Soltec Solar Development Program Environmental Impact Report (Public Review Comment Sheet). We own the real properties located at 2754 Ribbonwood Road and 2750 Ribbonwood Road, Boulevard, CA.

If you have any problems reading the attached PDF file, then please contact me immediately.

Very truly yours,

Clifford C. Caldwell

WRITTEN COMMENT FORM

My wife and I both strongly object to the Soltec Solar Development Project(s)
that are in direct view of our properties located at 2754 and 2750 Ribbonwood
Road, Boulevard, CA. We are located to the west of Ribbonwood Road near the
proposed Rugged Solar Project. We are concerned about the aesthetics, air
quality, water quality, water use and the effect on local wildlife. We own
over 100 acres that are covered with huge oak trees and numerous wildlife(bobcats,
mountain lions, deer, breeding pairs of hawks, coyotes, quail, great blue heron,
and even the golden eagle) that are supported by the large pond on our property.

*ATTACHMENT TO WRITTEN COMMENT FORM FOR SOLETEC SOLAR DEVELOPMENT
PROGRAM ENVIRONMENTAL IMPACT REPORT (PAGE 2 -CONTINUED . . .)
[Clifford C. Caldwell & Conception Caldwell, Owners of the real properties located at
2754 and 2750 Ribbonwood Road, Boulevard, CA.]

We are extremely concerned about the large quantities of water being used and the
reduction of the local aquifers. These aquifers presently support the fragile oak trees that
populate our properties and the adjacent properties around us. We would request that our
water levels be monitored and any reduction of our water table be avoided. We believe
that we will be severely impacted by the aesthetics and visual impacts of the projects,
including possible reflections from the Concentrated Photovoltaic (CPV) trackers when
we drive up Ribbonwood Road and/or when they track the sun as it sets to the west over
our properties. The Rugged Solar Project alone, involves over one square mile of CPV
trackers near our properties to the north of the freeway.

We object to each of the related projects (Tierra del Sol Solar Farm, Rugged Solar Farm,
LanEast Solar Farm, LanWest Solar Farm and their supporting infrastructure projects)
and the similar adverse effects that they will have over the rest of the Boulevard area.
One of the most adverse effects is the direct negative impact on all of our "property
values".

We support and endorse the well-documented opposition and objections to the Soltec
Solar Development Projects as stated by and/or filed by the Boulevard Planning
Group, Backcounty Against Dumps, and/or The Protect Our Communities Foundation.
